OUR AGRICULTURAL RESOURCES.

[We take the following well written article, on the Agricultural resources of British Columbia, from the *Cariboo Sentinel* of the 15th inst. We are glad to see our mining contemporary devoting a portion of his space to the discussion of a question so closely identified with the future growth and prosperity of the Colony, and cordially unite with him in expressing a hope that the Government will see the importance of exerting its utmost influence to induce parties to take up land with a view to its cultivation and raising stock thereon. Upon these, more than any other pursuits, hang the future well-being of this and the neighboring Colony.—En. B. C.]

"All mining countries pass through their several stages of development, and we are no exception to the rule. The first stage after the discovery of gold presents the curious anomaly produced by the assemblage of a heterogeneous crowd composed of all classes from all parts of the world, and comprising members of every profession and trade known; the hardships and privations attendant upon a miner's life very soon tell upon those whose occupations had previously spared them from hard labor, and after experiencing the precarious fortune which the search for gold inflicts on its votaries, the artisan and agricultural classes withdraw themselves from the pursuit and resume their several occupations, poorer but wiser men. It is at this stage in the progress of a mining country that the Government should step in and by the offer of inducements, such as facility of pre-emption and settlement of land, formation of roads, and every other encouragement that can be judiciously extended to the cultivator of the soil, secure the bone and sinew, the true wealth of every new country, which otherwise seeks employment where a more liberal Government can appreciate it. How far our Government has exerted itself to retain the agriculturists who were originally attracted to these shores by the gold excitement, we do not at this moment purpose to discuss; what we wish particularly to elucidate at present is, the rare opportunity presented in this country to the industrious farmer who, we insist can in no other country find cheap land of wonderful fertility, good roads, and ready markets such as are to be found here. That any one of these advantages may be superior at a given place, we are ready to admit, but the combination is unequalled. We are often amused at the discontent expressed by the farmers of two or three years' standing, who grumble at present prices as if the consumers inflicted an absolute injury upon them in declining to pay the enormous rates of previous years, before a title of the land now under cultivation was taken up. This is really absurd, the remuneration offered at the present moment to agricultural pursuits cannot be equalled in any other country; they forget that though the expense of clearing the land, purchase and packing over bad roads of farming implements, and the difficulties of procuring suitable seeds, cost large sums of money, much time and hardship, they have also had their time of high prices to repay them; but now with good roads and competition they must expect a reduction of their profits; produce in a year or two will be much lower than it is, even on the mines, and then will pay the cultivator very handsomely. We are firmly convinced that large fortunes are in store for those who will go earnestly to work at stock raising. There are large unsettled portions of this country that are unequalled for that purpose; unrivalled prairies, covered with grass that is justly celebrated for its fattening properties; thousands of acres of wild hay that requires but the labor of cutting and stacking to secure ample food for the winter; setting aside the astonishing fecundity of the soil in root crops, which can be grown at a trifling cost. All these sources of wealth lay waiting the willing hands that may be put forth to receive it, and we earnestly recommend such of our citizens as have the aptitude for the bucculent to apply their shoulders to the wheel at once, and in enriching themselves they will at the same time advance the country in prosperity. It

has often occurred to us when we observed large tracts of land covered with what are called alkali patches avoided by settlers as they would a plague, that they did not seem to understand the wealth they treated with such contempt; these patches are the most productive that can be chosen for the best root. Some enterprising men of capital will reap a rich harvest in the manufacture of sugar from this tuber, which can be grown to an enormous extent in this country on the land now lying waste. The cost of producing this kind of crop would be very small, as the land is generally free from timber and brush and would only require plowing and sowing. The machinery necessary for the manufacture of sugar is not expensive, so that the capital employed would be small compared with the result. Sheep raising has not received the attention it deserves, and we attribute this to the absence of the proper breeds for this climate. We recommend our stock raisers to subscribe amongst themselves and import a number of the black-faced Cheviots that succeed so well on the bleak Scottish hills; these hardy little fellows, that fatten where the herbage is so scanty, would, if crossed with the sheep obtainable in the neighboring territories, be a most profitable stock, and their wool would soon enable us to export something besides gold. Our experience in farming is of the most limited character, and we merely throw out these suggestions for the consideration of those who are to the "manor born," at the same time there are some self-evident facts in relation to the agricultural wealth of this country that cannot escape the notice of the uninitiated, and feeling the necessity of urging the exploration of this richest of all mines of wealth, we cannot too frequently call public attention to what seems to be only thought an occupation for Chinamen, who by the way are reaping splendid incomes from what our laboring population affect to despise.

AYER'S

Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such

as Tumors, Ulcers, Sores, Eruptions,

Scalds, Pustules, Itchings, Boils,

Blisters, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1866.

J. C. AYER & Co. Gentls: I feel it my duty to

acknowledge what your Sarsaparilla has done for me.

Having inherited a Scrofulous Taint, I have suffered

from it in various ways for years. Sometimes it

burst out in Ulcers on my hands and arms; some-

times it turned inward and distressed me at the stomach. Two

years ago it broke out on my head and covered my scalp

and ears with one sore, which was painful and loathsome

beyond description. I tried many medicines and several

physicians, but without much relief from any thing. In

fact, the disorder grew worse. At length I was

referred to the Gospel Messenger, that had prepared

an alternative Sarsaparilla, and I knew your reputation

that any thing you made must be good. I sent to

Chicinnadi and got it, and used it till it cured me. I took

it, as you advise, in small doses of a teaspoonful over a

month, and used almost three bottles. Now and healthy

skin soon began to form under the scab, which after a

while fell off. My skin is now clear, and I know by my

feelings that the disease has gone from my system. I

truly believe that I feel what I am saying when I tell

you, that I hold you to be one of the apostles of the age,

and remain ever gratefully.

Yours,

ALFRED R. TALLEY.

St. Anthony's Fire, Rose or Erysipelas,

Ringworm, Scald Head, Dropsy,

Dr. J. B. Channing, of New York City, writes: "I

most cheerfully comply with the request of your agent in

saying I have found your Sarsaparilla a most excellent

alternative in the numerous complaints for which we

employ such remedy, but especially in *Pruritus Dermatis*

of the Scrofulous diathesis. I have cured many invec-

erate cases of Leucorrhoea by it, and some where the com-

plaint was caused by ulceration of the uterus. The ulcer-

ation itself was soon cured. Nothing within my knowl-

edge equals it in these female disorders."

Edward S. Morrow, of Newbury, Mass., writes: "A

dangerous cancer tumor on one of the female in my family,

which had defied all the remedies we could employ, has

at length been completely cured by your Extract of Sar-

saparilla. Our physician thought nothing but extirpa-

tion could afford relief, but he advised the trial of your

Sarsaparilla as the last resort before cutting, and it

proved successful. After taking your remedy eight weeks

no symptom of the disease remained."

Syphilis and Mercurial Disease.

Dr. J. C. Ayer & Co. New Orleans, 23d August, 1866.

Dr. J. C. Ayer & Co. Sir: I feel it my duty to

acknowledge what your Sarsaparilla has done for me.

I have been afflicted with the most violent

chronic Rheumatism for a long time, which baffled the

skill of physicians, and took me in spite of all the

remedies I could find, until I tried your Sarsaparilla. One

bottle cured me in two weeks, and restored my general

health so much that I am far better than before I was

attacked. I think it a wonderful medicine. J. FREEMAN.

Julius V. Getchell, of St. Louis, writes: "I have been

afflicted with Rheumatism for a long time, which baffled the

skill of physicians, and took me in spite of all the

remedies I could find, until I tried your Sarsaparilla. One

bottle cured me in two weeks, and restored my general

health so much that I am far better than before I was

attacked. I think it a wonderful medicine. J. FREEMAN.

Many remarkable cures of these affections have been

made by the alternative power of this medicine. It stimu-

lates the vital forces into vigorous action, and thus

overcomes disorders which would be supposed beyond its

reach. Such a remedy has long been required by the

necessities of the people, and we are confident that this will

do for them all that medicine can do.

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness,

Croup, Bronchitis, Incipient Con-

sumption, and for the Relief

of Consumptive Patients

in advanced stages

of the Disease.

This is a remedy so universally known to surpass any

other for the cure of throat and lung complaints, that it

is useless here to publish the evidence of its virtues. Its

unrivalled excellence for coughs and colds, and its truly

wonderful cures of pulmonary disease, have made it

known throughout the civilized nations of the earth.

Few are the communities, or even families, among them

who have not some personal experience of its effects—

some living trophy in their midst of its victory over the

subtle and dangerous disorders of the throat and lungs.

As all know the dreadful fatality of these disorders, and

as they know, too, the effects of this remedy, we need not

do more than to assure them that it has now all the vir-

tuities that it did have when making the cures which have

won so strongly upon the confidence of mankind.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

MOORE & Co., Agents, Victoria, V. I. Sold by H.

SMITH and Dr. J. H. SMITH, New Westminster, and by

every dealer in the Colony.

ary last, past, (and re-executed by Siegfried

The British Columbian.

WEDNESDAY, OCTOBER 31, 1866.

MUNICIPAL COUNCIL.

The Council met on Monday evening. Present: The President, and Councillors Ferris, Ashwell, Rylatt, and Clute. Absent: Councillors Armstrong, Ladner, Withrow, Calder, Cunningham, McMillan, and Wintemute.

The minutes of previous meeting were read and confirmed.

Accounts from the B. C. Mill Co. and R. Hodgson were presented, and referred to the Finance Committee.

The Clerk was instructed to communicate with the Private Secretary of His Excellency the Governor, requesting to be informed when His Excellency is expected to arrive in this city.

The President and Councillors Armstrong and Ferris were appointed to prepare an address to Governor Seymour on his arrival in this city.

The Clerk was ordered to have all cordwood removed from off the streets in the city.

On motion the Council adjourned.

FROM DOUGLAS.—The steamer Henrietta, Capt. Dodge, came in from Douglas on Monday afternoon, bringing down several passengers and a small express for Dietz & Nelson.

The news from the Douglas mines is of little interest. The late rains have put a partial stop to mining pursuits, and several of the claims have been laid over for the season, while others have been taken up and are being prospected.

Among the latter a Mr. Charles Petch has taken up a claim, adjoining Indian claim No. 1, on the opposite side of the river, which prospects four cents to the pan. It is believed this claim will pay \$5 or \$6 a day to the hand, when properly worked. Several other claims that are being worked are yielding very satisfactorily.

In May, 1863, a canoe was upset in the Lillooet river containing four Indian women and a boy, all of whom were drowned except one woman. The bodies of two of the women were shortly after found, but of the remaining woman and boy nothing was ever heard until last week, when their remains were found in the exact spot where the canoe upset. They were identified by some Indians, who recognized the clothing they had on. An arm, leg, and head of the woman were missing, and only the lower extremities of the boy were found. The remains were taken in charge by the Indians and buried.

FROM YALE.—The steamer Reliance, Capt. Irving, arrived from Yale on Monday evening, with passengers and an up-country express for Dietz & Nelson. We received files of the Cariboo Sentinel to the 22d inst., but they contain little news of interest. The latest mining intelligence we give elsewhere, and in addition we make the following summary: A piece of quartz from the Washburn ledge, on Canyon Creek, weighing 54 oz., was assayed last week at the Bank of British Columbia, from which was obtained \$120 of gold, this yielding at the rate of \$7,200 to the ton. Another piece of rock from the Stewart ledge, weighing 44 oz., was also tested, and yielded \$1, being at the rate of \$7,300 to the ton. A memorial has been got up, and signed by nearly every merchant and miner on Williams and the neighboring creeks, requesting the Government to retain Mr. Cox in that district.

The Cariboo Literary Institute now contains 437 volumes and numbers 104 subscribers. The reading-room is supplied with 14 weekly and 2 semi-weekly newspapers, also Blackwood's and Harper's Magazines, the London Quarterly, North British, Westminster, and Edinburgh Reviews, besides numerous papers left at the room by members and subscribers.

FROM BIG BEND.—Mr. Frank Howlett arrived on Monday evening from Big Bend. Mr. Howlett left French Creek on the 8th inst. Snow had fallen to a depth of four inches. On the summit, in crossing over to Seymour, it was three feet deep, and travelling was very bad. There were about 800 men on French Creek; probably 200 will winter there. Five or six claims continued to pay. The Blackhawk (two men) was averaging \$300 to \$400 a week. The Perrier (three men) 7 to 8 oz. a day. Mr. Howlett estimates the yield of French Creek for the season at over \$300,000. All look with confidence to next season. Markets are well supplied, and prices very reasonable. The steamer Forty-Nine left the Landing on the morning of the 8th, carrying down forty passengers.

FROM VICTORIA.—The steamer Enterprise, Capt. Swanson, arrived from Victoria last evening with freight and passengers. There is nothing new in the papers. The Telegraph continues to coolly discuss the supposed advantages of annexation to the United States, while the Colonist brays forth loyalty. (?)

ELECTION NEWS.—From a gentleman just down from Big Bend we learn that the election for that district commenced on the 12th inst. The candidates were Mr. R. T. Smith, Mr. W. C. McNamara, and Mr. J. G. Barnston. The latest account of the polling gave Mr. Smith 236, McNamara 13, and Barnston 3 votes. Seymour and La Porte had not been heard from, but no doubt the returns from these localities will add still more to Mr. Smith's majority. His election is beyond a doubt.

HOME GUARDS.—We are desired by the officer commanding to state that on Saturday, November 10th, there will be a commanding officer's parade at 4 p. m., for the inspection of arms and accoutrements, when every member of the corps is expected to be present.

CUSTOMS RECEIPTS for week ending Saturday, October 27th, 1866.—Duties \$1659 29; harbor dues \$152 95; head money \$53 00; tonnage dues \$177 50. Total, \$2042 74. Passengers 53.

INTERCOLONIAL RIFLE MATCH.—The New Westminster Ten will go down by the Enterprise this morning, to attend the return match with the Victoria Volunteers, which will come off to-morrow.

INTERCOLONIAL CRICKET MATCH.—A New Westminster Eleven will go down this morning to play the Victorians to-morrow.

THE ASSIZES will commence in this city on Thursday (to-morrow) week. We believe the Docket is a very light one.

MINING INTELLIGENCE.

[From the Cariboo Sentinel, October 22.]

WILLIAMS CREEK.

The weather during the past few days has been very unfavorable for the miners. Since Thursday we have had snow storms almost every day with heavy frosts at night, which gives everything a wintry appearance.

A number of wheels have been stopped by the frost, and will not be started again this season. Some are of opinion that when the present cold snap blows over we will have a week or two of good weather yet.

The Hyack Co. took out last week 460z. Morning Star Co. made wages. Last Chance Co. washed out for week 700z. Forest Rose Co. took out 50 00z. for week.

GROUSE CREEK.

The Heron Co.; this claim appears to be getting richer every day; the wash up for Monday last was 420z. \$4; Tuesday, 990z. \$13; Wednesday, 860z. \$6; Thursday, 1300z. \$7; Friday, 810z. \$8; Saturday, 1030z. \$12; Sunday, (yesterday) 810z.; total for week, 6250z. \$2, or \$1100 to the share clear of expenses. The Full Rigg Co. are reported to have washed out yesterday over 1000z., this claim joins the Discovery. We have been unable this week to hear from the claims further up the creek.

CUNNINGHAM CREEK.

Prospects have lately been found on this creek which justify us in believing that lively times may be expected there next year. Hitherto all the prospecting has been carried on chiefly on the eastern side of the creek, while it is now being demonstrated that the pay channel exists on the western bank; when this is fully explored (as it will undoubtedly be) by those who intend wintering there, and prove to be rich, a large field will be opened up for mining enterprise. Standish Co., four men, who are at work on the western bank, are commencing to clean up, and expect to do well. Great Eastern Co. have found good prospects and are certain of making \$8 a day; they are building a house over their shaft and intend working all winter. Floyd Co., ground laid over till next season. Sharp & Co. are working over old ground and making wages. Lewis & Co., two men, have made more than wages during the season; they have ground sluiced a piece of ground, from which, by present indications, they expect to clean up about 150 ounces. John Gray & Co. have started drifting into the eastern bank under the town site; they have made expenses all summer. There are at present 18 men on this creek, of whom 9 intend to remain during the winter.

CEDAR CREEK.

From a gentleman who left this creek last Thursday, we are informed that the Aurora Co. had cleaned up for the week ending 14th inst., 128 oz.—Discovery Co. were making from \$16 to \$20 a day to the hand. Borealis Co. were taking out about wages. Rolly & Co. had sunk two shafts 20 feet in depth, and found the rock pitching into the hill; they are now drifting. Watson Co. sunk a shaft in the bank and bottomed on high rock at ten feet; they are now

sinking in the creek where they struck water at ten feet. Eaton Co. had cut a tailrace 100 feet in length to drain their ground so as to enable them to sink; they struck a bed of quicksand in their shaft at 20 feet, through which they are unable to sink. A number of men intend wintering on this creek. Snow had fallen on Bald Mountain to the depth of three feet on Friday last.

TELEGRAPHIC.

SPECIAL DISPATCH TO THE "BRITISH COLUMBIAN."

EASTERN STATES.

NEW YORK, Oct. 29.—The grant for colonization of the vacant lands of Lower California to an American Company has been confirmed by the Juarez Government. The parties have received an order of possession through the Mexican Minister.

Advices from Toronto say that petitions are coming in demanding that no mercy be shown to Fenians now on trial there. There are several hundreds of Irish Americans in Toronto, apparently without employment, and it is believed they are there to attempt a rescue. Three more Fenians at Cornwall will be indicted on Monday for high-treason. Judge Wilson pronounced sentence of death on Colonel Lynch, last Thursday. The execution will be delayed until the end of next term. Lynch is a native of Galway, and claims to have been in Canada as a correspondent of a Louisville journal, and also that he is innocent.

WASHINGTON, Oct. 28.—A letter from Vera Cruz, dated the 12th, says General Castellman arrived there with instructions to send to France all French troops, also a message from Napoleon to Maximilian, advising him to abdicate in favor of any body he pleases, and to go home.

CALIFORNIA.

SAN FRANCISCO, Oct. 29.—Arrived 27th, the brig Crimea, 10 days from Port Ludlow, with lumber. 20th.—Bark Chas. Devens, 14 days from Port Madison.

Sailed 27th.—Ship Nicholas Biddle, Nanaimo; British Bark Charlotta, Puget Sound. 28th.—H. B. M. str. Scout, Victoria; bark Rainier, Puget Sound.

BRITISH COLUMBIA.

HOPE, Oct. 30.—Weather mild and cloudy; thermometer 52.

LYTTON, Oct. 30.—Weather foggy and mild with drizzling rain.

YALE, Oct. 30.—Weather cloudy, foggy and raining; thermometer 53.

SODA CREEK, Oct. 30.—Thermometer 40, calm, snow (disappearing fast). A boat with twenty passengers passed downwards this morning.

QUESNEL, Oct. 30.—Weather cloudy.

CLINTON, Oct. 30.—Weather foggy; thermometer 40.

HOPE, Oct. 30.—Brown's pack train came in yesterday with 20 passengers from Kootenay. The news from Kootenay is good and the men coming with Brown appeared to have plenty of the dust. There was very little snow on the Similkameen mountains and the road is in good travelling condition.

There has been a fight at Colville in which the ex-sheriff killed another man and was himself mortally wounded.

A PAINFUL AFFAIR.

The recent marriage of Prince Christian, of Augustenburg, to the Princess Helena, of England, has very much pained and shocked many worthy Englishmen. This young girl has been given by her mother to a man who has already a wife and children living. He contracted a morganatic marriage years ago, and has never been divorced. Now a morganatic marriage is just as legal as any other marriage. The only thing about it which deprives it of the ordinary consequences of marriage is that the woman who marries a man of superior rank agrees that she and her children will never be entitled to the rank or possessions of her husband, the dowry or morgengabe—whence the word "morganatic"—being in lieu of all other privileges. The morganatic wife is as legal a wife as any woman can be, and the children are perfectly legitimate. A prince, therefore, who has a wife living, and nevertheless contracts marriage with another woman, commits bigamy, and there may be doubt whether the second marriage is legal as to the woman. This is the condition in which it is said the unfortunate Princess of England has been placed by the obstinacy of the mother, who insisted upon the match, and would not be satisfied until it was indissolubly ratified. It is surmised in some quarters that the Princess did not know of this unhappy cloud which will lower over her happiness; but the Prince of Wales did know. It was really his place to give away the bride, but he flatly refused to do so, and was present under protest. The Duke of Cambridge, uncle of the bride, did not come at all, and it was given out that he had the gout, to account for his absence. The English are somewhat of a sensitive people on these subjects, and very properly so, and they are

beginning to doubt whether the maldy peculiar to the Georges is not once more active in the occupant of the throne. We may truly pity the poor girl who has thus been thrown away upon a poverty-stricken German adventurer, and the happiness of her life wrecked. And we may also deplore, in the interests of humanity, the Royal Marriage act, a statute grossly unjust to members of the royal family, and which peculiarly exposes them to such wrongs as the Princess Helena now suffers.—Exchange Paper.

The London Review says:—"According to the German law a morganatic alliance is no marriage at all, dissoluble whenever the male serenity sees fit to unite himself with one of his own rank. It gives neither the security of a permanent contract nor civil position to the wife, and to accompany it with a religious ceremony is nothing short of desecration. Notwithstanding these objections, morganatic marriages are still very common among the princes of Germany, and the attention of the people of England has been called to this subject recently by the fact that the Duchess of Cambridge and Princess Helena have both allied themselves to German princes who had entered this relationship of doubtful respectability. In commenting on this state of things, the Review hopes that all these "petty kings and kinglings" of Germany will soon be swallowed up by the prospective mediocrity which little principalities with; for then, says the Review, "when all those princely papers with whom the children of our royal family have been accustomed to ally themselves are reduced to the condition of subjects, their nominal rank will not be greater than that of our noble houses; it will be an incalculable saving to the British exchequer when our young princes and princesses are brought to marry into the great and wealthy families of England instead of importing their spouses from Germany."

HOLLOWAY'S OINTMENT AND PILLS.—Grand Discovery.—The knowledge that all the different components of the body—flesh, bone, brain and skin—are alike exacted from the same food, led the inventor of these medicaments to the conclusion that disease was likewise nourished from the same source—impurity of the blood. Taking this new view of the cause of ill health, he set himself to the task of finding out the means of ridding the circulation of all poisonous or deteriorating matters, and after much study succeeded in propounding his celebrated Ointment and Pills. The former, when rubbed upon the skin, relieves the local vessels of every taint and all disorders of action; the latter repels every atom of corruption from the general circulation.

TOYS AND FANCY GOODS.—G. C. Clark and Co. having made large additions of the above Goods to their stock, any one wishing to make a present would do well to give them a call, as they have a great variety of nice, neat and natty articles of vertu which are useful, and at the same time will please the eye and adorn a table or mantel-shelf.

REMOVAL.—Mr. Wm. Woodman has removed his boot and shoe shop to Holt's corner, in the premises recently occupied by I. Lyons, watchmaker, where he will be happy to receive his old customers.

CODVILLE LANDING!

Important to Packers, Stock Drivers, and the Public in General.

THE Public are respectfully informed that James Codville, of the wide renowned Codville Landing Ranch, is prepared to receive any number of animals and cattle to ranch this coming winter, on the most liberal terms.

Large Reductions from the regular price made in favor of trains.

Persons intending wintering their own stock can be accommodated with Hay in the stack, and stables and sheds for their animals, and Houses for themselves, on the most reasonable terms.

The Ranch is situated on the opposite side of the Fraser from that of Sumass, is on an island 6 1/2 miles long by 4 1/2 wide, is high and dry, no place where animals can mire, well protected from north winds, free from any kind of poison weed, and affords every facility, natural and artificial, for the accommodation of stock.

James Codville would also call public attention to the fact that he is prepared to furnish Hay at a very reduced price, and in quantities to suit all purchasers.

In returning thanks to the Public for past patronage, I am in hopes that the good condition in which I turned out animals on former seasons will secure for me a share of the Public patronage this coming winter.

Horse covers, pack saddles, and all rigging taken care of, and every satisfaction given for the least possible charge to those who may entrust their stock to me, or order Hay.

AGENTS.—DIETZ & NELSON, New Westminster. A. BARLOW, Esq., Yale.

Remember Codville Landing, not Sumass. An Hotel open and a ferry from the 1st October, for the travelling Public.

JAMES CODVILLE, N. B.—Stock bought and sold on commission. selte

S.T-1860-X.

"Just so!" "Exactly!"—Satan Shingle said; they were there "every time." If he felt "worry" in the morning, he took Plantation Bitters; if he felt weary at night, he took Plantation Bitters; if he lacked appetite, he took Plantation Bitters; and they never failed to set him on his pins square and firm.

A few bottles of PLANTATION BITTERS will cure Nervous Headache, Cold Extremities and Feverish Lips, Sour Stomach and Puffed Breasts, Flatulency and Indigestion, Nervous Affections, Excessive Fatigue and Short Breath, Pain over the Eyes, Mental Depression, Prostration, Great Weakness, Sallow Complexion, Weak Bowels, &c.

After a long research, we are able to present the most potent and most remarkable cure for these horrible night-mare diseases, the world has ever produced. Within one year over six hundred and forty thousand persons have taken the Plantation Bitters, and not an instance of complaint has come to our knowledge.

This is a most effective and agreeable stimulant, suited to all conditions of life. The report that it relies upon mineral substances for its active properties are wholly false. The original quality and high standing of these goods will be sustained under every and all circumstances. They have already obtained a sale in every town, village, parish and hamlet among civilized nations. Base imitators try to come as near our name and style as they can, and because a good article cannot be sold as low as a poor one, they find some support from parties who do not care what they sell. Be on your guard. See our private stamp over the cork.

Sold by all Druggists, Grocers, country stores and dealers throughout the world.
REDINGTON & CO.,
San Francisco,
General Agents for the Pacific Coast.

Barnes' Magnolia Water.

A toilet delight! The ladies' treasure and gentlemen's boon! The "sweetest thing" and largest quantity. Manufactured from the rich Southern Magnolia. Used for bathing the face and person, and to render the skin soft and fresh, to prevent eruptions, and to perfume clothing, &c.

It overcomes the unpleasant odor of perspiration. It removes redness, tan, blotches, &c. It cures nervous headache and allays inflammation. It cools, softens, and adds delicacy to the skin. It yields a subdued and lasting perfume. It cures mosquito bites and stings of insects. It cures no material injuries to the skin. It is what every lady should have. Sold everywhere. Try the Magnolia Water once and you will use no other Cologne, Perfumery, or Toilet Water afterwards.

Sold by Druggists and Dealers everywhere.
DEAN BARNES & CO.,
Proprietors, Exclusive Agents, N. Y.

Lyons' Kathairon.

It is a most delightful hair dressing. It eradicates dandruff and itching. It keeps the hair cool and clean. It makes the hair rich, soft and glossy. It prevents the hair turning grey and falling off. It restores hair upon prematurely bald heads. This is just what Lyons' Kathairon will do. It is pretty, it is cheap, it is durable. It is literally sold by the ear load, and yet its almost incredible demand is daily increasing, and there is hardly a country store that does not keep it, or a family that does not use it.

E. THOMAS LYON, Chemist, N. Y.

Mustang Liniment.

Have you a hurt child or a lame horse? Use the Mustang Liniment. For cuts, sprains, burns, swellings and caked breasts the Mustang Liniment is a certain cure.

For rheumatism, neuralgia, stiff joints, edging and bites, there is nothing like the Mustang Liniment. For sprained horses, the poll evil, ringbone and swellings, the Mustang Liniment never fails.

For wind-galls, scratches, bug-bites and splint, the Mustang Liniment is worth its weight in gold. Cuts, bruises, sprains and swellings, are so common and certain to occur in every family, that a bottle of this Liniment is the best investment that can be made.

It is more certain than the doctor—it saves time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with.

On lifting the kettle from the fire, it tipped over and scalded my hands terribly. The Mustang Liniment extracted the pain, cooled the sore to heal rapidly, and left very little scar.

CLAS FOSTER, 420 Broad St., Phila.
Mr. S. Litch, of Hyde Park, Vt., writes: "My horse was wounded worthless, (sprain), but since the use of the Mustang Liniment I have sold him for \$150. Your Liniment is doing wonders up here."

All genuine is wrapped in steel plate engravings, signed G. W. Westbrook, Chemist, and also has the private U. S. stamp of Deane Barnes & Co. over the top. Look closely. Sold by all Druggists, at 25, 50 cts., and \$1.00.

Lyons' Flea Powder.

DEATH TO FLEAS.—It is well known that Lyons' genuine Flea Powder, will perfectly destroy everything in the shape of fleas, ticks, bed-bugs, roaches, &c.; that it is perfect poison to the insect tribe, but entirely harmless to the human species and domestic animals. The genuine has the signature of R. Lyons, and the private stamp of Deane Barnes & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

THE GRAND PROMOTERS OF

HEALTH.

HOLLOWAY'S PILLS.

The grand secret of attaining happiness is to secure good health, without which life is stripped of all its pleasure. The first irregularity of any function should be checked and set right by appropriate doses of these fine purifying Pills, which strengthen the system, by thoroughly cleansing the blood from all impurities. They balance disordered action, remove the cause of disturbance, and restore its normal and natural power to every organ, without inconvenience, pain, or any other drawback.

Derangement of the Bowels, Liver

and Stomach Complaints.

This medicine is so well known in every part of the world, and the cures effected by its use are so wonderful, as to astonish everyone. Its pre-eminence as a remedy for Bilious and Liver-complaints, and derangements of the stomach and bowels, is no longer a matter of dispute or doubt. In these diseases the beneficial effects of Holloway's inviolable Pills are so permanent and extensive that the whole system is renovated, the organs of digestion strengthened, and full and easy assimilation promoted, so that both physical and moral energy are increased.

Determination of Blood to the

Head.

This is generally occasioned by some irregularity of the stomach and bowels, which, if not quickly attended to, frequently terminates fatally. A few doses of these famous Pills never fail to give tone to the stomach, regularity to the secretions, and purity to the fluids. Vertigo, dizziness of sight, and other indications of approaching apoplexy, are entirely dissipated by a course of the admirable medicine.

The Female's Best Friend.

For all debilitating disorders peculiar to the sex and in every contingency perilous to the life of
